WORK HISTORY

PROGRAMMER ANALYST | 2024
Cognizant Technology Solutions

Centrica Plc (2023 - Present)

- Contributed to the Brand Refresh Project by converting existing pages to align with a new design system, enhancing the visual appeal and functionality of the website.
- Developed new pages and features based on client requirements, ensuring a seamless integration with the updated design system and meeting project specifications.
- Collaborated with cross-functional teams to gather requirements, design solutions, and implement AEM-based components and templates, optimizing the content management system for developing British Gas Pages.
- Participated in Agile development processes, including sprint planning, daily stand-ups, and retrospectives, contributing to effective cognject management and team collaboration.
- Based on design provided, experienced in integration of 3rd party components to develop webpages in AEM for British Gas Website.

- Proficient in Nucleus Design Library for AEM and used its components to develop webpages in AEM for British Gas Website.
- Managed Digital Asset Management (DAM) files within AEM, organizing and maintaining digital assets to ensure efficient retrieval and usage while authoring.

PROGRAMMER ANALYST TRAINEE | 2023
Cognizant Technology Solutions

Centrica Plc (2023 - Present)

- Received initial training in Core Java, gaining a solid understanding of object-oriented programming and backend development principles.
- Transitioned to AEM (Adobe Experience Manager) technology, successfully completing comprehensive training and handling small tasks to build expertise in AEM.
- Collaborated with senior developers and team members, gaining valuable insights and experience in AEM development.
- Created and maintained technical documentation for AEM projects, facilitating knowledge sharing and ease of maintenance.
- Upskilled by completing online courses and exercises, continuously enhancing technical knowledge and staying updated with the latest industry trends.
- Created sample pages locally, demonstrating functionality and design capabilities across team members.

INTERN | 2022
Cognizant Technology Solutions

- Led a team of 4 in developing a full stack project using HTML, CSS, JavaScript, Bootstrap, MySQL, Java Spring, Maven, and Angular, gaining comprehensive experience in front-end and back-end development.
- Managed project timelines and delegated tasks to ensure the successful completion and testing of a dummy project, culminating in a successful assessment that demonstrated proficiency in full stack technologies.
- Assisted in the creation of documentation and user guides, improving accessibility and understanding of project details.
- Supported the testing and deployment of the full stack project, ensuring smooth implementation and functionality.
- Gained exposure to Agile methodologies and contributed to team meetings and discussions, building teamwork and collaboration skills.
